Your Cancer Profile

You or a loved one is confronting the difficult news of a colorectal cancer diagnosis. This informational card is designed to help you discuss this diagnosis with your oncologist and gather personal information about your disease in one place for easy reading and quick access.

Learning this information will help you have informed conversations with medical professionals, other caregivers, and fellow CRC patients. Being able to discuss your disease with professionals, and with your neighbors in COLONTOWN, will help you discern the best treatment choices for you.

Work with your oncologist to add personal information about your disease here. This information comes from reports on imaging, tumor samples, and/or blood. If you do not have some of this information, talk with your doctor about ordering the appropriate tests.
